Helping people see the world clearly.

At half Helen, we believe that clear vision is a basic human right—not a privilege. Our mission is simple: to provide accessible, high-quality eye care to underserved communities. What started as a mobile vision program has grown into a full-service eye clinic and outreach initiative serving children and families across Central Texas.

What We Do

School-Based Services. We partner with local school districts to provide vision screenings, eye exams, and glasses—at no cost to families. By connecting students with the care they need, we help prevent vision problems from becoming learning barriers.

Community Eye Clinic. Our brick-and-mortar location in Austin allows us to offer comprehensive eye exams and glasses with the same focus on access and affordability. Now accepting private insurance, Medicaid, and Medicare, half Helen is proud to be one of just eight clinics in Austin that accept Medicaid.

Training the Next Generation. Through a new partnership with Dr. Laurie Sorrenson of Lakeline Vision Source, half Helen is now hosting fourth-year optometry externs. These students split their time between Lakeline and our clinic, gaining real-world experience while learning how community-based clinics operate. We're actively working toward becoming a full-time externship rotation site, expanding both our reach and our impact.

Why Sponsor?

Your sponsorship helps us reach more families, equip our clinic with essential technology, and ensure that no one has to go without the vision care they deserve. Whether you're supporting an upcoming event or helping us fund a new initiative, you're investing in a brighter, clearer future for our community.

Patients Served Since 2021

4,401 Child Eye Exams

14,418 Adult Eye Exams

93% of Children Prescribed Glasses

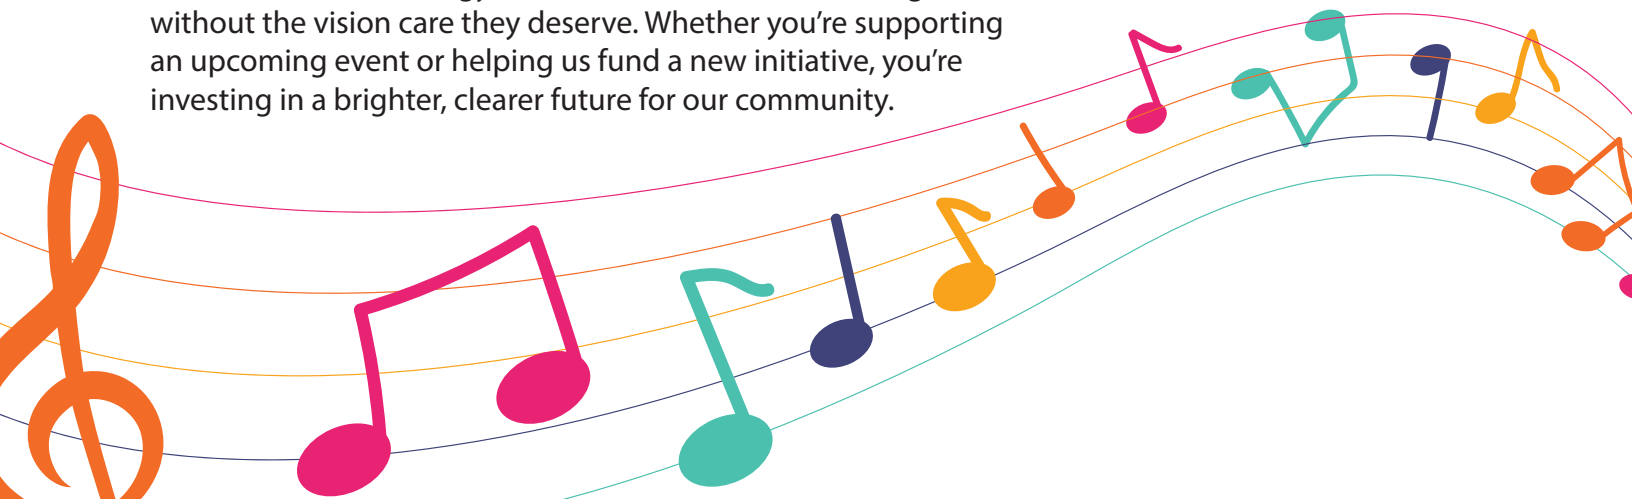

The majority of children we serve need corrective lenses. We help remove vision barriers so they can thrive in the classroom.

2000 Glasses Donated by Warby Parker

Thanks to our partnership with Warby Parker, students have the opportunity to select an extra pair to keep at school.

96% of Adults Prescribed Glasses

Accessible eye care helps people take back control by regaining independence and the ability to fully engage in daily life.

Bingo With a Twist!

It's not just bingo—it's Jukebox Bingo! This high-energy spin on the classic game brings music lovers together for a night of fun, nostalgia, and friendly competition. Our DJ and MC will spin hits from across the decades, guiding players through a musical journey from yesterday's favorites to today's chart-toppers. Instead of numbers, you'll be listening for songs—so get ready to sing along, mark your card, and shout BINGO! in style!

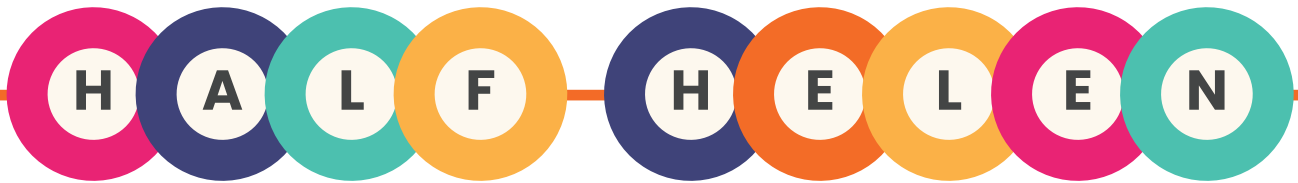

Dress Code

Dress code: Get ready for a fun and stylish evening at half Helen's Jukebox Bingo Night Fundraiser! We encourage guests to dress in cocktail or smart casual attire—think polished yet comfortable.

Dinner Menu*
